

CAPABILITY COUNTS 2017

Half-Day Tutorials

MORNING: Monday, May 15, 2016

Tutorial #1

8:30 – 11:30am:

Agile Learning Experience

Instructor:

Jeff Dalton

Description: Experience hands-on learning in this 1/2 -day session focusing on Agile values and frameworks, and how CMMI can improve the performance of Agile teams.

Take home work products: CMMI Institute Agile Profile (authored by the presenter), Class slides, Professional Scrum Master Study Guide

Tutorial #2

8:30 – 11:30am:

Effective Performance Measurement

Instructor:

Michael West

Description: This tutorial provides hands-on, practical implementation experience, work products, and exercises that removes the mystery and barriers to effectively and efficiently adopting and leveraging this foundational process area – Measurement and Analysis.

Take home work products: Goal Articulation Criteria Excel worksheet, Standard content construct (an example) for defining measures

Half-Day Tutorials

AFTERNOON: Monday, May 15, 2016

Tutorial #1

1:00 – 4:00 pm:

Random Neuron Firings

Instructor:

Pat O'Toole

Description: Blending real world examples, practical advice, and humorous analogies, participants will learn to think more robustly about their improvement approach and apply proven methods they can implement immediately. Just as importantly, they will learn what booby traps to avoid based on the battle scars of those who have gone before.

Take home work products: Improvement job aids and articles available upon request with the promise that "no salesman will ever call."

Tutorial #2

1:00 – 4:00 pm:

Hands-On Estimation, Risk Management, Negotiation With CMMI-DEV, PMBOK and Agile

Instructor:

Neil Potter

Description: In the weeds of PMBOK, CMMI Maturity Levels 2 and 3, and Scrum, there are expectations to estimate, assess risk, and negotiate deadlines with management. But how do you do this and avoid being beaten up? Learn how to meet customer, management and model expectations while keeping our own project sanity and focusing on success.

Take home work products: Estimation, Risk, and Negotiation process and work sheets
